Light-cure Orthodontic Adhesive

EasyOrtho

Chinese National Invention Patent No.: ZL 2023 1 0411504.1

***Easy to Use, Time-saving
Reliable Bonding Performance
Applicable to Any Brackets
No refrigeration required***

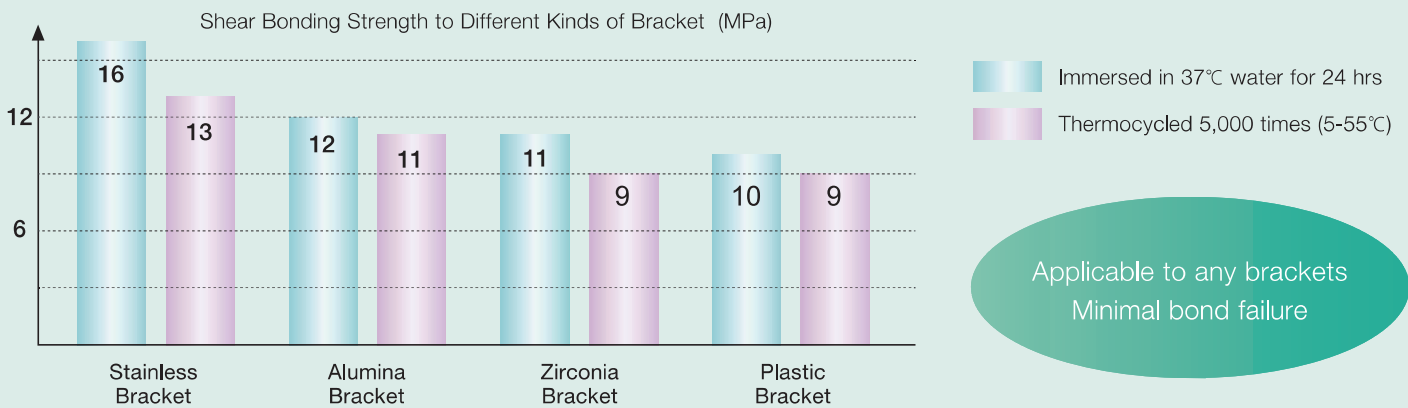

EasyOrtho

EasyOrtho is a light-cure adhesive resin for orthodontic bonding of metal, ceramic and plastic brackets to tooth surface.

Easy to Use, Time-Saving

Through the innovative design of the base monomer, EasyOrtho Paste can bond to etched enamel well without priming.

Reliable Bonding Performance

Clinical Procedure
